

LANSERHOF TEGERNSEE RECEIVES HIGHEST RATING IN THE 2017 RELAX GUIDE

For the 16th time, mystery shoppers visited a total of 1,300 Spa Hotels in Germany with Lanserhof Tegernsee achieving the highest rating of four lillies and 20 points.

Maximum points – The independent Spa Hotel Guide RELAX Guide annually rates hotels in the categories wellness, health and spa and conducts detailed hotel reviews. Lanserhof Tegernsee was reviewed by mystery shoppers and made it straight to the top.

The 7,000 square meters medical area at the heart of the Lanserhof, which includes ultramodern treatment, counselling and exercise rooms, has been a key factor for this decision. "The medical spa is by far the most luxurious of its kind in Europe (or even, taking into consideration the medical spas we know, in the world)" enthuses the RELAX Guide in its review.

Lanserhof Tegernsee is located amidst the natural beauty of the Tegernsee valley and boasts an exceptional amount of space (a total of 21,000 square meters). The centerpiece of the complex is the large treatment area offering a broad portfolio of diagnostic, therapeutic and cosmetic services - all based on the very successful LANS Med Concept. Due to the LANS Med Concept, the Lanserhof is a pioneer of the medicine of the future and already leading the way in regenerative and preventive medicine. This holistic health concept unites the most advanced international medical procedures and findings with traditional healing methods and provides health-conscious guests with a sensitive system of successful diagnostics and therapy techniques to sustain their health long-term.

The 70 exclusively furnished rooms - the smallest 55 square meters in size - and suites are sanctuaries for guests and generously designed with plenty of room for peace and privacy.
